## THE MODULAR PREFABRICATED WOODEN HOUSE

AFFORDABLE | DURABLE | SUSTAINABLE

## • VISION

We work every day to let people live in a modern and sustainable way wherever on earth they feel at home.

## • MISSION

We build long-lasting wooden houses ensuring high energy performance, sound insulation and durability. Thanks to our patents, know-how and 30 years experience in the field we can satisfy every space requirements and give you a unique and original Italian style home.

- **A-FOLD**

A-FOLD combines traditional construction methods and innovative materials to build your modular prefabricated wooden house and provide you with an affordable, high quality and sustainable living space quickly and easily.

You can add **your personal touch** picking up your favourite model and your preferred materials, according to your needs and your budget. We offer you many construction options and finishes to **personalize** your own home. Thanks to our highly standardized manufacturing process and dry assembly structure, **you can save time and money and protect the environment.**

- **A-FOLD**  
MODEL T

Model T is a modular wooden house appreciated by both young couples and large families because of the **variety of sizes** available according to space requirements. It has an unconventional geometric shape and is chosen by tour operators to build resorts and glamping sites because it lends itself very well as a holiday home **when you want to escape from the city.**
